NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Note 1. Business and Basis of Presentation

General Motors Financial Company, Inc. (sometimes referred to as we, us, our, the Company, or GM Financial), the wholly-owned captive finance subsidiary of General Motors Company (GM), is a global provider of automobile finance solutions. We provide retail loan and lease lending across the credit spectrum to support vehicle sales. Additionally, we offer commercial lending products to dealers, including floorplan financing, which is lending to finance new and used vehicle inventory, and dealer loans, which are loans to finance improvements to dealership facilities, to provide working capital, or to purchase and/or finance dealership real estate.

Basis of Presentation The consolidated financial statements include our accounts and the accounts of our consolidated subsidiaries, including certain special purpose entities (SPEs) utilized in secured financing transactions, which are considered variable interest entities (VIEs). All intercompany transactions and accounts have been eliminated in consolidation.

The consolidated financial statements, including the notes thereto, are condensed and do not include all disclosures required by generally accepted accounting principles (GAAP) in the U.S. These condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2023, as filed with the Securities and Exchange Commission on January 30, 2024 (2023 Form 10-K).

The condensed consolidated financial statements at March 31, 2024, and for the three months ended March 31, 2024 and 2023, are unaudited and, in management's opinion, include all adjustments, which consist of normal recurring adjustments and transactions or events discretely impacting the interim periods, considered necessary by management to fairly state our results of operations. The results for interim periods are not necessarily indicative of results for a full year. The condensed consolidated balance sheet at December 31, 2023 was derived from audited annual financial statements. Except as otherwise specified, dollar amounts presented within tables are stated in millions. Certain columns and rows may not add due to rounding.

Note 2. Related Party Transactions

We offer loan and lease finance products through GM-franchised dealers to customers purchasing new vehicles manufactured by GM and certain used vehicles and make commercial loans directly to GM-franchised dealers and their affiliates. We also offer commercial loans to dealers that are consolidated by GM and those balances are included in finance receivables, net.

Under subvention programs, GM makes cash payments to us for offering incentivized rates and structures on retail loan and lease finance products. In addition, GM makes cash payments to us to cover interest payments on certain commercial loans we make to GM-franchised dealers. We received subvention payments from GM of \$777 million and \$749 million for the three months ended March 31, 2024 and 2023. Subvention due from GM is recorded as a related party receivable.

Amounts due to GM for commercial finance receivables originated but not yet funded are recorded as a related party payable.

Cruise is the GM global segment responsible for the development and commercialization of autonomous vehicle technology. We have a multi-year credit agreement with Cruise whereby we may provide advances to Cruise, over time, through 2024, to fund the purchase of autonomous vehicles from GM. Advances under this credit agreement are guaranteed by GM Cruise Holdings LLC. At March 31, 2024 and December 31, 2023, Cruise had \$395 million and \$353 million of borrowings outstanding and access to an additional \$3.4 billion in advances under the credit agreement. Amounts due from Cruise are included in finance receivables, net.

We are included in GM's consolidated U.S. federal income tax returns and certain U.S. state returns, and we are obligated to pay GM for our share of the related tax liabilities. During both the three months ended March 31, 2024 and 2023, no payments were made to GM for state and federal income taxes. Amounts owed to GM for income taxes are recorded as a related party payable.

(a) Included in finance charge income.

(b) Included as a reduction to leased vehicle expenses.

Under the support agreement with GM (the Support Agreement), if our earning assets leverage ratio at the end of any calendar quarter exceeds the applicable threshold set in the Support Agreement, we may require GM to provide funding sufficient to bring our earning assets leverage ratio within the applicable threshold. In determining our earning assets leverage ratio (net earning assets divided by adjusted equity) under the Support Agreement, net earning assets means our finance receivables, net, plus leased vehicles, net, and adjusted equity means our equity, net of goodwill and inclusive of outstanding junior subordinated debt, as each may be adjusted for derivative accounting from time to time.

Additionally, the Support Agreement provides that GM will own all of our outstanding voting shares as long as we have any unsecured debt securities outstanding. GM also agrees to certain provisions in the Support Agreement intended to ensure we maintain adequate access to liquidity. Pursuant to these provisions, GM provides us with a \$1.0 billion junior subordinated unsecured intercompany revolving credit facility, and GM will use commercially reasonable efforts to ensure that we will continue to be designated as a subsidiary borrower under GM's corporate revolving credit facilities. We have access, subject to available capacity, to \$14.1 billion of GM's unsecured revolving credit facilities consisting of a five-year, \$10.0 billion facility and a three-year, \$4.1 billion facility. We also have exclusive access to GM's \$2.0 billion 364-Day Revolving Credit Facility (GM Revolving 364-Day Credit Facility). We had no borrowings outstanding under any of the GM revolving credit facilities at March 31, 2024 and December 31, 2023. In March 2024, GM renewed the GM Revolving 364-Day Credit Facility, which now matures on March 27, 2025.

We review the ongoing credit quality of our retail finance receivables based on customer payment activity. A retail account is considered delinquent if a substantial portion of a scheduled payment has not been received by the date the payment was contractually due. Retail finance receivables are collateralized by vehicle titles, and, subject to local laws, we generally have the right to repossess the vehicle in the event the customer defaults on the payment terms of the contract. The following tables are consolidated summaries of the amortized cost of retail finance receivables by delinquency status, for each vintage of the portfolio at March 31, 2024 and December 31, 2023, as well as summary totals for March 31, 2023. Loan Modifications Under certain circumstances, we may agree to modify the terms of an existing loan with a borrower for various reasons, including financial difficulties, and we may provide interest rate reductions, principal forgiveness, payment deferrals, term extensions or a combination thereof. A loan that is deferred greater than six months in the preceding twelve months would be considered to be other-than-insignificantly delayed. In such circumstances, we must determine whether the modification should be accounted for as an extinguishment of the original loan and a creation of a new loan, or the continuation of the original loan with modifications.

The amortized costs at March 31, 2024 and 2023 of the loans modified during the three months ended March 31, 2024 and 2023 were insignificant. The unpaid principal balances, net of recoveries, of loans charged off during the reporting period that were modified within 12 months preceding default were insignificant for the three months ended March 31, 2024 and 2023.

Commercial Credit Quality Our commercial finance receivables consist of dealer financing, primarily for dealer inventory purchases, and other financing, which includes loans to commercial vehicle upfitters, as well as advances to certain GM subsidiaries.

For our dealer financing, we use proprietary models to assign a risk rating to each dealer and perform periodic credit reviews of each dealership. We adjust the dealership's risk rating, if necessary. There is limited credit risk associated with other financing due to the structure of the business relationships.

Our dealer risk model and risk rating categories are as follows:

Dealer Risk Rating	Description
I	Performing accounts with strong to acceptable financial metrics with at least satisfactory capacity to meet financial commitments.
II	Performing accounts experiencing potential weakness in financial metrics and repayment prospects resulting in increased monitoring.
III	Non-Performing accounts with inadequate paying capacity for current obligations and that have the distinct possibility of creating a loss if deficiencies are not corrected.
IV	Non-Performing accounts with inadequate paying capacity for current obligations and inherent weaknesses that make collection or liquidation in full highly questionable or improbable.

Dealers with III and IV risk ratings are subject to additional monitoring and restrictions on funding, including suspension of lines of credit and liquidation of assets. The following tables summarize the dealer credit risk profile by dealer risk rating at March 31, 2024 and December 31, 2023:

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS - (Continued)

At March 31, 2024 and December 31, 2023, substantially all of our commercial finance receivables were current with respect to payment status, and activity in the allowance for commercial loan losses was insignificant for the three months ended March 31, 2024 and 2023. There were no commercial finance receivables on nonaccrual status at March 31, 2024 and December 31, 2023.

There were no charge-offs, and no loan modifications were extended to borrowers experiencing financial difficulty during the three months ended March 31, 2024 and 2023.

Note 5. Equity in Net Assets of Nonconsolidated Affiliates

We use the equity method to account for our equity interest in joint ventures. Revenue and expenses of our joint ventures are not consolidated into our financial statements; rather, our proportionate share of the earnings of each joint venture is reflected as equity income.

There have been no ownership changes in our joint ventures since December 31, 2023. The following table presents certain aggregated operating data of our joint ventures:

Summarized Operating Data	Three Months Ended March 31,	
	2024	2023
Finance charge income	\$ 286	\$ 392
Income before income taxes	\$ 120	\$ 155

Secured Debt Most of the secured debt was issued by VIEs and is repayable only from proceeds related to the underlying pledged assets. Refer to [Note 7](#) for further information.

During the three months ended March 31, 2024, we renewed credit facilities with a total borrowing capacity of \$2.4 billion, and we issued \$7.3 billion in aggregate principal amount of securitization notes payable with an initial weighted average interest rate of 5.38% and maturity dates ranging from 2024 to 2036.

Unsecured Debt During the three months ended March 31, 2024, we issued \$4.4 billion in aggregate principal amount of senior notes with an initial weighted average interest rate of 5.33% and maturity dates ranging from 2027 to 2031.

General Motors Financial Company, Inc. is the sole guarantor of its subsidiaries' unsecured debt obligations for which a guarantee is provided.

Compliance with Debt Covenants Several of our revolving credit facilities require compliance with certain financial and operational covenants as well as regular reporting to lenders, including providing certain subsidiary financial statements. Certain of our secured debt agreements also contain various covenants, including maintaining portfolio performance ratios as well as limits on deferment levels. Our unsecured debt obligations contain covenants including limitations on our ability to incur certain liens. At March 31, 2024, we were in compliance with these debt covenants.

Note 8. Derivative Financial Instruments and Hedging Activities

We are exposed to certain risks arising from both our business operations and economic conditions. We manage economic risks, including interest rate risk, primarily by managing the amount, sources, and duration of our assets and liabilities and by using derivative financial instruments. Specifically, we enter into derivative financial instruments to manage exposures that arise from business activities that result in the receipt or payment of future known and uncertain cash amounts, the value of which are determined by interest rates. Our derivative financial instruments are used to manage differences in the amount, timing, and duration of our known or expected cash receipts and our known or expected cash payments principally related to our borrowings.

Certain of our foreign operations expose us to fluctuations of foreign interest rates and exchange rates. We primarily finance our earning assets with debt in the same currency to minimize the impact to earnings from our exposure to fluctuations in exchange rates. When we use a different currency, these fluctuations may impact the value of our cash receipts and payments in terms of our functional currency. We enter into derivative financial instruments to protect the value or fix the amount of certain assets and liabilities in terms of the relevant functional currency.

The table below presents the gross fair value amounts of our derivative financial instruments and the associated notional amounts:

	March 31, 2024			December 31, 2023		
	Notional	Fair Value of Assets	Fair Value of Liabilities	Notional	Fair Value of Assets	Fair Value of Liabilities
Derivatives designated as hedges

The gross amounts of the fair value of our derivative instruments that are classified as assets or liabilities are included in other assets or other liabilities, respectively. Amounts accrued for interest payments in a net receivable position are included in other assets. Amounts accrued for interest payments in a net payable position are included in other liabilities. All our derivatives are categorized within Level 2 of the fair value hierarchy. The fair value for Level 2 instruments was derived using the market approach based on observable market inputs including quoted prices of similar instruments and foreign exchange and interest rate forward curves.

We primarily enter into derivative instruments through AmeriCredit Financial Services, Inc. (AFSI); however, our SPEs may also be parties to derivative instruments. Agreements between AFSI and its derivative counterparties include rights of setoff for positions with offsetting values or for collateral held or posted. At March 31, 2024 and December 31, 2023, the fair value of derivative instruments that are classified as assets or liabilities available for offset was \$1.1 billion and \$1.2 billion. At March 31, 2024 and December 31, 2023, we held \$447 million and \$457 million of collateral from counterparties that was available for netting against our asset positions. At both March 31, 2024 and December 31, 2023, we had \$1.2 billion of collateral posted to counterparties that was available for netting against our liability positions.

All amounts reclassified from accumulated other comprehensive income (loss) were recorded to interest expense. During the next 12 months, we estimate an insignificant amount of losses will be reclassified into pre-tax earnings from derivatives designated for hedge accounting.

Note 9. Commitments and Contingencies

Legal Proceedings We are subject to various pending and potential legal and regulatory proceedings in the ordinary course of business, including litigation, arbitration, claims, investigations, examinations, subpoenas and enforcement proceedings. Some litigation against us could take the form of class actions. The outcome of these proceedings is inherently uncertain, and thus we cannot confidently predict how or when proceedings will be resolved. An adverse outcome in one or more of these proceedings could result in substantial damages, settlements, fines, penalties, diminished income or reputational harm.

In accordance with the current accounting standards for loss contingencies, we establish reserves for legal matters when it is probable that a loss associated with the matter has been incurred and the amount of the loss can be reasonably estimated. The actual costs of resolving legal matters may be higher or lower than any amounts reserved for these matters. At March 31, 2024, we estimated our reasonably possible legal exposure for unfavorable outcomes to be approximately \$151 million, and we have accrued \$137 million.

Other Administrative Tax Matters We accrue non-income tax liabilities for contingencies when management believes that a loss is probable and the amounts can be reasonably estimated, while contingent gains are recognized only when realized. In the event any losses are sustained in excess of accruals, they will be charged against income at that time.

In evaluating indirect tax matters, we take into consideration factors such as our historical experience with matters of similar nature, specific facts and circumstances, and the likelihood of prevailing. We reevaluate and update our accruals as matters progress over time, where there is a reasonable possibility that losses exceeding amounts already recognized may be incurred. Our estimate of the additional range of loss is up to \$187 million at March 31, 2024.

Note 12. Segment Reporting

Our chief operating decision maker evaluates the operating results and performance of our business based on our North America and International Segments. Our North America Segment includes operations in the U.S. and Canada. Our International Segment includes operations in Brazil, Chile, Colombia, Mexico and Peru, as well as our equity investments in joint ventures in China. The management of each segment is responsible for executing our strategies. Key operating data for our operating segments were as follows:

Note 13. Regulatory Capital and Other Regulatory Matters

We are required to comply with a wide variety of laws and regulations. Certain of our entities operate in international markets as either banks or regulated finance companies that are subject to regulatory restrictions. These regulatory restrictions, among other things, require that certain of these entities meet minimum capital requirements and may restrict dividend distributions and ownership of certain assets. We were in compliance with all regulatory capital requirements as most recently reported. Total assets of our regulated international banks and finance companies were approximately \$7.9 billion and \$7.7 billion at March 31, 2024 and December 31, 2023.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Forward-looking statements in this Management's Discussion and Analysis of Financial Condition and Results of Operations (MD&A) are not guarantees of future performance and may involve risks and uncertainties that could cause actual results to differ materially from those projected. Refer to the "Forward-Looking Statements" section of this MD&A and the "Risk Factors" section of our Annual Report on Form 10-K for the fiscal year ended December 31, 2023, as filed with the Securities and Exchange Commission (SEC) on January 30, 2024 (2023 Form 10-K), for a discussion of these risks and uncertainties.

Basis of Presentation

This MD&A should be read in conjunction with the accompanying condensed consolidated financial statements and notes thereto and the audited consolidated financial statements and notes thereto included in our 2023 Form 10-K.

Except as otherwise specified, dollar amounts presented within tables are stated in millions. Certain columns and rows may not add due to rounding. Average balances are calculated using daily balances, where available. Otherwise, average balances are calculated using monthly balances.

Overview

We continue to monitor the current global economic environment, specifically inflationary pressures and related central bank responses, and any resulting impacts on our financial position and results of operations. Refer to Item 1A. Risk Factors in our 2023 Form 10-K for additional information.

Results of Operations

Key Drivers Income before income taxes for the three months ended March 31, 2024 decreased to \$737 million from \$771 million for the three months ended March 31, 2023. Key drivers of the change include the following:

- Finance charge income on retail finance receivables increased \$326 million primarily due to an increase in the effective yield and growth in the size of the portfolio. The effective yield on our retail finance receivables increased primarily due to increased average interest rates on new loan originations.
- Finance charge income on commercial finance receivables increased \$92 million primarily due to an increase in the size of the portfolio and an increase in the effective yield as a result of higher benchmark rates.
- Other income increased \$69 million primarily due to higher investment income resulting from an increase in benchmark interest rates.
- Interest expense increased \$397 million primarily due to an increase in the effective rate of interest on our debt, resulting from higher benchmark rates, as well as an increase in the average debt outstanding.
- Provision for loan losses increased \$73 million primarily due to moderating credit performance and recovery rates, partially offset by a decrease due to lower loan originations.

Non-GAAP Measure

Return on Average Common Equity Return on average common equity is a generally accepted accounting principle (GAAP) measure widely used to measure earnings in relation to invested capital. Our return on average common equity decreased to 15.3% for the four quarters ended March 31, 2024 from 19.6% for the four quarters ended March 31, 2023, primarily due to decreased earnings.

Return on Average Tangible Common Equity We use return on average tangible common equity, a non-GAAP measure, to measure our contribution to General Motors Company's (GM) enterprise profitability and cash flows. Our return on average tangible common equity decreased to 16.8% for the four quarters ended March 31, 2024 from 21.5% for the four quarters ended March 31, 2023, primarily due to decreased earnings.

GENERAL MOTORS FINANCIAL COMPANY, INC.

The following table presents our reconciliation of return on average tangible common equity to return on average common equity, the most directly comparable GAAP measure:

	Four Quarters Ended	
	March 31, 2024	March 31, 2023
Net income attributable to common shareholder	\$ 2,078	\$ 2,589
Average equity	\$ 15,537	\$ 15,211
Less: average preferred equity	(1,969)	(1,969)
Average common equity	13,568	13,242
Less: average goodwill and intangible assets	(1,182)	(1,172)
Average tangible common equity	<u>\$ 12,386</u>	<u>\$ 12,069</u>
Return on average common equity	15.3 %	19.6 %
Return on average tangible common equity	16.8 %	21.5 %

Our calculation of this non-GAAP measure may not be comparable to similarly titled measures of other companies due to potential differences between companies in the method of calculation. As a result, the use of this non-GAAP measure has limitations and should not be considered superior to, in isolation from, or as a substitute for, related U.S. GAAP measures. This non-GAAP measure allows investors the opportunity to measure and monitor our performance against our externally communicated targets and evaluate the investment decisions being made by management to improve our return on average tangible common equity. Management uses this measure in its financial, investment and operational decision-making processes, for internal reporting and as part of its forecasting and budgeting processes. For these reasons, we believe this non-GAAP measure is useful to our investors.

Three Months Ended March 31, 2024 compared to Three Months Ended March 31, 2023

Leased vehicles purchased	\$ 4,308	\$ 3,926	\$ 382	9.7 %

Average retail finance receivables increased primarily due to new loan originations in excess of principal collections and payoffs. Our penetration of GM's retail sales in the U.S. was 39.9% and 45.9% for the three months ended March 31, 2024 and 2023. Penetration levels vary depending on incentive financing programs available and competing third-party financing products in the market.

Average commercial finance receivables increased primarily due to growth in the average amount financed per dealer, resulting from increased new vehicle inventory, as well as higher floorplan penetration.

Leased vehicles purchased increased primarily due to growth in GM sales, higher lease sales mix, and higher vehicle prices.

Revenue	Three Months Ended March 31,		2024 vs. 2023	
	2024	2023	Amount	Percentage
Finance charge income				
Retail finance receivables	\$ 1,493	\$ 1,167	\$ 326	27.9 %
Commercial finance receivables	\$ 293	\$ 201	\$ 92	45.7 %
Leased vehicle income	\$ 1,800	\$ 1,818	\$ (18)	(1.0)%
Other income	\$ 225	\$ 156	\$ 69	44.3 %
Equity income	\$ 32	\$ 41	\$ (9)	(22.7)%
Effective yield - retail finance receivables	8.2 %	7.1 %		
Effective yield - commercial finance receivables	8.3 %	7.6 %		

Finance Charge Income - Retail Finance Receivables Finance charge income on retail finance receivables increased primarily due to an increase in the effective yield and growth in the size of the portfolio. The effective yield on our retail finance receivables increased primarily due to increased average interest rates on new loan originations. The effective yield represents finance charges, rate subvention and fees recorded in earnings during the period as a percentage of average retail finance receivables.

Finance Charge Income - Commercial Finance Receivables Finance charge income on commercial finance receivables increased primarily due to an increase in the size of the portfolio and an increase in the effective yield as a result of higher benchmark rates.

Other Income Other income increased primarily due to higher investment income resulting from an increase in benchmark interest rates.

Costs and Expenses	Three Months Ended March 31,		2024 vs. 2023	
	2024	2023	Amount	Percentage
Operating expenses	\$ 458	\$ 442	\$ 16	3.6 %
Leased vehicle expenses	\$ 1,047	\$ 1,039	\$ 8	0.8 %
Provision for loan losses	\$ 204	\$ 131	\$ 73	55.4 %
Interest expense	\$ 1,396	\$ 1,000	\$ 397	39.7 %
Average debt outstanding	\$ 105,264	\$ 96,880	\$ 8,384	8.7 %
Effective rate of interest on debt	5.3 %	4.2 %		

Operating Expenses Operating expenses as an annualized percentage of average earning assets were 1.6% for both the three months ended March 31, 2024 and 2023.

Provision for Loan Losses Provision for loan losses increased primarily due to moderating credit performance and recovery rates, partially offset by a decrease due to lower loan originations.

Interest Expense Interest expense increased primarily due to an increase in the effective rate of interest on our debt, resulting from higher benchmark rates, as well as an increase in the average debt outstanding.

Taxes Our consolidated effective income tax rates were 28.4% and 25.5% of income before income taxes and equity income for the three months ended March 31, 2024 and 2023. The increase in the effective income tax rate is primarily driven by the reduction of the income tax benefit attributable to certain tax credits.

Other Comprehensive Income (Loss)

Unrealized Gain (Loss) on Hedges Unrealized gain (loss) on hedges included in other comprehensive income (loss) was \$26 million and \$(52) million for the three months ended March 31, 2024 and 2023. The change in unrealized gain (loss) was primarily due to changes in the fair value of our foreign currency swap agreements.

Unrealized gains and losses on cash flow hedges of our floating rate debt are reclassified into earnings in the same period during which the hedged transactions affect earnings via principal remeasurement or accrual of interest expense.

Foreign Currency Translation Adjustment Foreign currency translation adjustments included in other comprehensive income (loss) were \$(65) million and \$102 million for the three months ended March 31, 2024 and 2023. Translation adjustments resulted from changes in the values of our international currency-denominated assets and liabilities as the value of

the U.S. Dollar changed in relation to international currencies. The foreign currency translation loss for the three months ended March 31, 2024 was primarily due to depreciating values of the Chinese Yuan Renminbi, Brazilian Real, and Canadian Dollar in relation to the U.S. Dollar. The foreign currency translation gain for the three months ended March 31, 2023 was primarily due to appreciating values of the Mexican Peso, Chinese Yuan Renminbi and Brazilian Real in relation to the U.S. Dollar.

Earning Assets Quality

Retail Finance Receivables Our retail finance receivables portfolio includes loans made to consumers and businesses to finance the purchase of vehicles for personal and commercial use. A summary of the credit risk profile by FICO score or its equivalent, determined at origination, of the retail finance receivables is as follows:

	March 31, 2024		December 31, 2023	
	Amount	Percent	Amount	Percent
Prime - FICO Score 680 and greater	\$ 55,332	75.6 %	\$ 54,882	75.5 %
Near-prime - FICO Score 620 to 679	8,692	11.9	8,647	11.9
Sub-prime - FICO Score less than 620	9,206	12.6	9,200	12.6
Retail finance receivables	73,230	100.0 %	72,729	100.0 %
Less: allowance for loan losses	(2,320)		(2,308)	
Retail finance receivables, net	\$ 70,911		\$ 70,421	
Number of outstanding contracts	3,153,977		3,121,144	
Average amount of outstanding contracts (in dollars) ^(a)	\$ 23,218		\$ 23,302	
Allowance for loan losses as a percentage of retail finance receivables	3.2 %		3.2 %	

(a) Average amount of outstanding contracts is calculated as retail finance receivables, divided by number of outstanding contracts.

Delinquency The following is a consolidated summary of delinquent retail finance receivables:

	March 31, 2024		March 31, 2023	
	Amount	Percent	Amount	Percent
31 - 60 days	\$ 1,463	2.0 %	\$ 1,188	1.8 %
Greater than 60 days	482	0.7	363	0.5
Total finance receivables more than 30 days delinquent	1,945	2.7	1,551	2.3
In repossession	60	0.1	44	0.1
Total finance receivables more than 30 days delinquent or in repossession	\$ 2,005	2.7 %	\$ 1,595	2.4 %

At March 31, 2024, delinquency increased from March 31, 2023 but continued to be lower than historical levels. We expect that delinquency will increase over time but may remain below our historical levels due to improvement in the credit mix of the portfolio.

Loan Modifications Loan modifications extended to the borrowers experiencing financial difficulty were insignificant for the three months ended March 31, 2024 and 2023. Refer to [Note 3](#) to our condensed consolidated financial statements for further information on loan modifications.

Net Charge-offs The following table presents charge-off data with respect to our retail finance receivables portfolio:

	Three Months Ended March 31,	
	2024	2023
Charge-offs	\$ 405	\$ 322
Less: recoveries	(213)	(186)
Net charge-offs	\$ 193	\$ 136
Net charge-offs as an annualized percentage of average retail finance receivables	1.1 %	0.8 %

Net charge-offs for the three months ended March 31, 2024 increased compared to the same period in 2023, primarily due to moderating credit performance and lower recovery rates, but continued to be lower than historical levels. We expect net

GENERAL MOTORS FINANCIAL COMPANY, INC.

charge-offs will increase over time but may remain below our historical levels due to improvement in the credit mix of the portfolio.

Commercial Finance Receivables	March 31, 2024	December 31, 2023
Commercial finance receivables	\$ 14,895	\$ 14,251
Less: allowance for loan losses	(35)	(36)
Commercial finance receivables, net	<u>\$ 14,860</u>	<u>\$ 14,216</u>
Number of dealers	<u>2,509</u>	<u>2,512</u>
Average carrying amount per dealer	<u>\$ 6</u>	<u>\$ 6</u>
Allowance for loan losses as a percentage of commercial finance receivables	<u>0.2 %</u>	<u>0.3 %</u>

No commercial loans were modified for the three months ended March 31, 2024 and 2023. Activity in the allowance for commercial loan losses was insignificant for the three months ended March 31, 2024 and 2023, and substantially all of our commercial finance receivables were current with respect to payment status at March 31, 2024 and December 31, 2023.

Leased Vehicles The following table summarizes activity in our operating lease portfolio (in thousands, except where noted):

	Three Months Ended March 31,	
	2024	2023
Operating leases purchased	93	86
Operating leases terminated	118	126
Operating leased vehicles returned ^(a)	28	13
Percentage of leased vehicles returned ^(b)	24 %	10 %

(a) Represents the number of vehicles returned to us for remarketing.

(b) Calculated as the number of operating leased vehicles returned divided by the number of operating leases terminated.

The return rate is largely dependent on the level of used vehicle values at lease termination compared to contractual residual values at lease inception. Return rates for the three months ended March 31, 2024 increased compared to the same period in 2023 due to declining used vehicle values, but continued to be lower than historical levels as used vehicle prices have generally remained higher than contractual residual values. Gains on terminations of leased vehicles were \$202 million and \$206 million for the three months ended March 31, 2024 and 2023.

The following table summarizes the residual value based on our most recent estimates and the number of units included in leased vehicles, net by vehicle type (units in thousands):

	March 31, 2024			December 31, 2023		
	Residual Value	Units	Percentage of Units	Residual Value	Units	Percentage of Units
Crossovers	\$ 12,659	632	67.6 %	\$ 12,830	648	67.5 %
Trucks	6,885	209	22.3	6,793	210	21.9
SUVs	2,189	55	5.9	2,304	58	6.0
Cars	671	39	4.2	734	44	4.6
Total	<u>\$ 22,404</u>	<u>934</u>	<u>100.0 %</u>	<u>\$ 22,661</u>	<u>960</u>	<u>100.0 %</u>

At both March 31, 2024 and 2023, 99.5% of our operating leases were current with respect to payment status.

Liquidity and Capital Resources

General Our primary sources of cash are finance charge income, leasing income and proceeds from the sale of terminated leased vehicles, net proceeds from credit facilities, securitizations, secured and unsecured borrowings, and collections and recoveries on finance receivables. Our expected material uses of cash are purchases and funding of finance receivables and leased vehicles, repayment or repurchases of secured and unsecured debt, funding credit enhancement requirements in connection with securitizations and secured credit facilities, interest costs, operating expenses, income taxes and dividend payments.

Typically, our purchase and funding of retail and commercial finance receivables and leased vehicles are initially financed by utilizing cash and borrowings on our secured credit facilities. Subsequently, we typically obtain long-term financing for finance receivables and leased vehicles through securitization transactions and the issuance of unsecured debt.

The following table summarizes our available liquidity:

Liquidity	March 31, 2024	December 31, 2023
Cash and cash equivalents ^(a)	\$ 5,028	\$ 5,282
Borrowing capacity on unpledged eligible assets	25,382	21,946
Borrowing capacity on committed unsecured lines of credit	727	687
Borrowing capacity on the Junior Subordinated Revolving Credit Facility	1,000	1,000
Borrowing capacity on the GM Revolving 364-Day Credit Facility	2,000	2,000
Available liquidity	<u>\$ 34,136</u>	<u>\$ 30,915</u>

(a) Includes \$382 million and \$380 million in unrestricted cash outside of the U.S. at March 31, 2024 and December 31, 2023. This cash is considered to be indefinitely invested based on specific plans for reinvestment.

We generally target liquidity levels to support at least six months of our expected net cash outflows, including new originations, without access to new debt financing transactions or other capital markets activity. At March 31, 2024, available liquidity exceeded our liquidity targets.

Cash Flow The following table summarizes our cash flow activities. For further detail, please refer to the Condensed Consolidated Statements of Cash Flows.

	Three Months Ended March 31,		
	2024	2023	
Net cash provided by (used in) operating activities	\$ 1,601	\$ 1,724	\$ (123)
Net cash provided by (used in) investing activities	\$ (1,626)	\$ (1,493)	\$ (133)
Net cash provided by (used in) financing activities	\$ 432	\$ 213	\$ 219

Net cash provided by operating activities decreased primarily due to a net decrease in cash provided by counterparty derivative collateral posting activities of \$255 million, an increase in interest paid of \$171 million, and a net increase in other assets of \$105 million, partially offset by an increase in finance charge income of \$418 million.

Credit Ratings We receive ratings from four independent credit rating agencies: DBRS Limited, Fitch Rating (Fitch), Moody's Investors Service (Moody's) and Standard & Poor's (S&P). The credit ratings assigned to us from all the credit rating agencies are closely associated with their opinions on GM. As of April 16, 2024, all credit ratings remained unchanged since December 31, 2023.

Credit Facilities In the normal course of business, in addition to using our available cash, we fund our operations by borrowing under our credit facilities, which may be secured and/or structured as securitizations or may be unsecured. We repay these borrowings as appropriate under our liquidity management strategy.

GENERAL MOTORS FINANCIAL COMPANY, INC.

At March 31, 2024, credit facilities consist of the following:

Facility Type	Facility Amount	Advances Outstanding
Revolving retail asset-secured facilities ^(a)	\$ 22,729	\$ 1,192
Revolving commercial asset-secured facilities ^(b)	4,225	331
Total secured	26,955	1,522
Unsecured committed facilities	743	16
Unsecured uncommitted facilities ^(c)	1,874	1,874
Total unsecured	2,617	1,890
Junior Subordinated Revolving Credit Facility	1,000	—
GM Revolving 364-Day Credit Facility	2,000	—
Total	\$ 32,571	\$ 3,413

(a) Includes committed and uncommitted revolving credit facilities backed by retail finance receivables and leases. The financial institutions providing the uncommitted facilities are not contractually obligated to advance funds under them. We had no advances outstanding and \$633 million in unused borrowing capacity on these uncommitted facilities at March 31, 2024.

(b) Includes revolving credit facilities backed by loans to dealers for floorplan financing.

(c) The financial institutions providing the uncommitted facilities are not contractually obligated to advance funds under them. We had \$1.9 billion in unused borrowing capacity on these facilities at March 31, 2024.

Refer to [Note 6](#) to our condensed consolidated financial statements for further discussion.

Securitization Notes Payable We periodically finance our retail and commercial finance receivables and leases through public and private term securitization transactions, where the securitization markets are sufficiently developed. A summary of securitization notes payable is as follows:

Year of Transaction	Maturity Date ^(a)	Original Note Issuance ^(b)	Note Balance at March 31, 2024
2019	April 2024 - July 2027	\$ 2,450	\$ 763
2020	December 2025 - August 2028	\$ 10,416	1,760
2021	January 2026 - June 2034	\$ 14,525	3,995
2022	November 2024 - October 2035	\$ 23,711	10,321
2023	January 2027 - August 2036	\$ 23,573	18,869
2024	April 2024 - December 2036	\$ 7,286	7,047
Total active securitizations			\$ 42,756

(a) Maturity dates represent legal final maturity of issued notes. The notes are expected to be paid based on amortization of the finance receivables and leases pledged.

(b) At historical foreign currency exchange rates at the time of issuance.

Our securitizations utilize special purpose entities, which are also variable interest entities that meet the requirements to be consolidated in our financial statements. Refer to [Note 7](#) to our condensed consolidated financial statements for further discussion.

Unsecured Debt We periodically access the unsecured debt capital markets through the issuance of senior unsecured notes. At March 31, 2024, the aggregate principal amount of our outstanding unsecured senior notes was \$52.6 billion.

We issue other unsecured debt through demand notes, commercial paper offerings and other bank and non-bank funding sources. At March 31, 2024, we had \$3.6 billion outstanding in demand notes and \$3.2 billion under the U.S. commercial paper program.

Support Agreement - Leverage Ratio Our earning assets leverage ratio calculated in accordance with the terms of the support agreement with GM (the Support Agreement) was 8.29x and 8.32x at March 31, 2024 and December 31, 2023, and the applicable leverage ratio threshold was 12.00x. In determining our earning assets leverage ratio (net earning assets divided by adjusted equity) under the Support Agreement, net earning assets means our finance receivables, net, plus leased vehicles, net, and adjusted equity means our equity, net of goodwill and inclusive of outstanding junior subordinated debt, as each may be adjusted for derivative accounting from time to time.

Asset and Liability Maturity Profile We define our asset and liability maturity profile as the cumulative maturities of our finance receivables, investment in leased vehicles, net of accumulated depreciation, cash and cash equivalents and other assets less our cumulative debt maturities. We manage our balance sheet so that asset maturities will exceed debt maturities each year. The following chart presents our cumulative maturities for assets and debt at March 31, 2024:

	2024	2025	2026	2027 and Thereafter
Encumbered assets	\$ 20,551	\$ 39,614	\$ 51,272	\$ 63,628
Unencumbered assets	35,534	50,894	62,581	69,593
Total assets	<u>56,085</u>	<u>90,508</u>	<u>113,853</u>	<u>133,221</u>
Secured debt	14,302	27,568	35,681	44,280
Unsecured debt	13,583	25,035	33,744	63,051
Total debt ^(a)	<u>27,885</u>	<u>52,603</u>	<u>69,425</u>	<u>107,331</u>
Net excess liquidity	<u>\$ 28,200</u>	<u>\$ 37,905</u>	<u>\$ 44,428</u>	<u>\$ 25,890</u>

(a) Excludes unamortized debt premium/(discount), unamortized debt issuance costs and fair value adjustments.

Critical Accounting Estimates

The preparation of condensed financial statements in conformity with accounting principles generally accepted in the U.S. requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosures of contingent assets and liabilities as of the date of the financial statements and the reported amount of revenue and expenses in the periods presented. Actual results could differ from those estimates, due to inherent uncertainties in making estimates, and those differences may be material. The critical accounting estimates that affect the condensed consolidated financial statements and the judgment and assumptions used are consistent with those described in Item 7. "Management's Discussion and Analysis of Financial Condition and Results of Operations" in our 2023 Form 10-K.

Forward-Looking Statements

This report contains several "forward-looking statements." Forward-looking statements are those that use words such as "believe," "expect," "intend," "plan," "may," "likely," "should," "estimate," "continue," "future" or "anticipate" and other comparable expressions. These words indicate future events and trends. Forward-looking statements are our current views with respect to future events and financial performance. These forward-looking statements are subject to many assumptions, risks and uncertainties that could cause actual results to differ significantly from historical results or from those anticipated by us. The most significant risks are detailed from time to time in our filings and reports with the SEC, including our 2023 Form 10-K. It is advisable not to place undue reliance on our forward-looking statements. We undertake no obligation to, and do not, publicly update or revise any forward-looking statements, except as required by federal securities laws, whether as a result of new information, future events or otherwise.

The following factors are among those that may cause actual results to differ materially from historical results or from the forward-looking statements:

- GM's ability to produce and sell new vehicles that we finance in the markets we serve;
- dealers' effectiveness in marketing our financial products to consumers;
- the viability of GM-franchised dealers that are commercial loan customers;
- the sufficiency, availability and cost of sources of financing, including credit facilities, securitization programs and secured and unsecured debt issuances;
- the adequacy of our underwriting criteria for loans and leases and the level of net charge-offs, delinquencies and prepayments on the loans and leases we purchase or originate;

- our ability to effectively manage capital or liquidity consistent with evolving business, operational or financing needs, risk management standards and regulatory or supervisory requirements;
- the adequacy of our allowance for loan losses on our finance receivables;
- our ability to maintain and expand our market share due to competition in the automotive finance industry from a large number of banks, credit unions, independent finance companies and other captive automotive finance subsidiaries;
- changes in the automotive industry that result in a change in demand for vehicles and related vehicle financing;
- the effect, interpretation or application of new or existing laws, regulations, court decisions, legal proceedings and accounting pronouncements;
- adverse determinations with respect to the application of existing laws, or the results of any audits from tax authorities, as well as changes in tax laws and regulations, supervision, enforcement and licensing across various jurisdictions;
- the prices at which used vehicles are sold in the wholesale auction markets;
- vehicle return rates, our ability to estimate residual value at lease inception and the residual value performance on vehicles we lease;
- interest rate fluctuations and certain related derivatives exposure, including risks from our hedging activities;
- our joint ventures in China, which we cannot operate solely for our benefit and over which we have limited control;
- uncertainties associated with benchmark interest rates;
- pandemics, epidemics, disease outbreaks and other public health crises;
- our ability to secure private data, proprietary information, manage risks related to security breaches, cyberattacks and other disruptions to networks and systems owned or maintained by us or third parties and comply with enterprise data regulations in all key market regions;
- foreign currency exchange rate fluctuations and other risks applicable to our operations outside of the U.S.;
- changes in local, regional, national or international economic, social or political conditions; and
- impact and uncertainties related to climate-related events and climate change legislation.

If one or more of these risks or uncertainties materialize, or if underlying assumptions prove incorrect, our actual results may vary materially from those expected, estimated or projected.

Available Information

Our internet website is www.gmfinancial.com. Our website contains detailed information about us and our subsidiaries. Our Investor Center website at <https://investor.gmfinancial.com> contains a significant amount of information about our Company, including financial and other information for investors. We encourage the public to visit our website, as we frequently update and post new information about the Company on our website, and it is possible that this information could be deemed to be material information. Our website and information included in or linked to our website are not part of this Quarterly Report on Form 10-Q.

Our Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q, and Current Reports on Form 8-K, as well as any amendments to those reports, are available free of charge on our website as soon as reasonably practicable after they are electronically filed with or furnished to the SEC. Item 3. Quantitative and Qualitative Disclosures About Market Risk

There have been no material changes in our exposure to market risk since December 31, 2023. Refer to Item 7A. - "Quantitative and Qualitative Disclosures About Market Risk" in our 2023 Form 10-K.

Item 4. Controls and Procedures

Disclosure Controls and Procedures We maintain disclosure controls and procedures designed to provide reasonable assurance that information required to be disclosed in reports filed under the Securities Exchange Act of 1934, as amended (Exchange Act), is recorded, processed, summarized and reported within the specified time periods and accumulated and communicated to our management, including our principal executive officer (CEO) and principal financial officer (CFO), as appropriate, to allow timely decisions regarding required disclosures.

Our management, with the participation of our CEO and CFO, evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) or 15d-15(e) promulgated under the Exchange Act) as of March 31, 2024, as required by paragraph (b) of Rules 13a-15 or 15d-15. Based on this evaluation, our CEO and CFO concluded that our disclosure controls and procedures were effective at the reasonable assurance level as of March 31, 2024.

Changes in Internal Control over Financial Reporting There have not been any changes in our internal control over financial reporting during the three months ended March 31, 2024, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II

Item 1. Legal Proceedings

CERTIFICATION

I, Daniel E. Berce, certify that:

1. I have reviewed this quarterly report on Form 10-Q of General Motors Financial Company, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
